

资源勘查工程国家级一流专业建设点

知名专家讲座 (1)

题 目: **Research of petroleum geochemistry, and future research directions**

报告人: **Professor Simon C. George**

邀请人: 陈飞扬; 主持人: 王阳

时 间: **2021/10/20 10:00**

地 点: 资源与地球科学学院 **B401**

主办单位: 资源与地球科学学院

煤层气资源与成藏过程教育部重点实验室

报告人简介: **Professor Simon C. George** is the leader of the organic geochemistry group and Head of Department of Earth and Environmental Sciences, Macquarie University in Sydney, Australia. He was the Acting Head of the EPS Department from Jan 2014 until 1st February 2015 and was Deputy Head of the EPS Department, 2018-2019. He also was the Director of the Macquarie University Marine Research Centre, 2015–2019. He is the Director of the Bachelor of Marine Science, 2020-present.

Prof. George has more than 30 years' experience in organic geochemistry, including 15 years specialising in petroleum geochemistry at CSIRO (Commonwealth Scientific and Industrial Research Organisation). His research projects including Fluid inclusions and molecular fossils as indicators of evolution in the Precambrian (astrobiology), Recent marine sediments: IODP and marine geoscience, and Femtosecond laser micropyrolysis gas chromatograph-mass spectrometer project. [Google Scholar statistics: Hirsch index = 40, i10-index = 101, total citations = **4836** 19/6/21. Total peer-reviewed papers = 150, in last 5 years (since 2016) = 58 (19/6/21). Research Gate Score: **41**].
